Friday, July 1, 2016

Dear Ms. Flanagan,

Per your public data request, attached find the Material Data Safety Sheet (MDSS) provided by FieldTurf to Edina Public Schools for the synthetic turf scheduled for installation at the Edina Community Center this summer. As previously noted in the [synthetic turf FAQ](#) on the district's website, the district requested both an MDSS of the product prior to receiving the product as well as additional testing of the product upon receipt. This additional testing of the turf will be coordinated by the district in collaboration with Anderson-Johnson Associates, Inc. and Braun Intertec prior to installation.

Sincerely,

*Susan Brott*  
*Director of Communications & Community Engagement*
