

## LEGISLATIVE COUNSEL'S DIGEST

Bill No.

as introduced, \_\_\_\_\_.

General Subject: Environmental health: synthetic turf.

Existing law regulates certain behavior related to recreational activities and public safety, including, among other things, playgrounds and wooden playground equipment.

This bill would require the Department of Resources Recycling and Recovery, by July 1, 2017, in consultation with the Office of Environmental Health Hazard Assessment, the State Department of Public Health, and the Department of Toxic Substances Control, to prepare and provide to the Legislature and post on the department's Internet Web site a study analyzing synthetic turf, as defined, for potential adverse health impacts. The bill would require the study to include certain information, including a hazard analysis of individual, synergistic, and cumulative exposures to the chemicals found in synthetic turf, as provided. The bill would prohibit a public or private school or local government, until January 1, 2018, from installing, or contracting

for the installation of, a new field or playground surface made from synthetic turf within the boundaries of a public or private school or public recreational park, as provided.

The California Tire Recycling Act (act) requires a person who purchases a new tire to pay a California tire fee, for deposit in the California Tire Recycling Management Fund, for expenditure by the department, upon appropriation by the Legislature, for programs related to the disposal of waste tires. The act specifies that the activities eligible for funding include the manufacture of specified products made from used tires.

The bill would include the above study as one of the acceptable activities eligible for this funding.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: no.

An act to add Article 3 (commencing with Section 115810) to Chapter 4 of Part 10 of Division 104 of, and to repeal Section 115812 of, the Health and Safety Code, and to amend Section 42873 of the Public Resources Code, relating to environmental health.

THE PEOPLE OF THE STATE OF CALIFORNIA DO ENACT AS FOLLOWS:

SECTION 1. Article 3 (commencing with Section 115810) is added to Chapter 4 of Part 10 of Division 104 of the Health and Safety Code, to read:

Article 3. The Children's Safe Playground and Turf Field Act of 2015

115810. For purposes of this article, "synthetic turf" means any composition material that contains recycled crumb rubber from waste tires and is used to cover or surface a field or playground.

115811. (a) By July 1, 2017, the Department of Resources Recycling and Recovery, in consultation with the Office of Environmental Health Hazard Assessment, the State Department of Public Health, and the Department of Toxic Substances Control, shall prepare and provide to the Legislature and post on the department's Internet Web site a study analyzing synthetic turf for potential adverse health impacts.

(b) The study shall include all of the following:

(1) A hazard analysis of individual, synergistic, and cumulative exposures to the chemicals found in synthetic turf such as 4-t-octylphenol, acetone, arsenic, barium, benzene, benzothiazole, butylated hydroxyanisole, cadmium, carbon black, chloroethane, chromium, lead, manganese, matex, mercury, methyl ethyl ketone, methyl isobutyl ketone, n-hexadecane, naphthalene, nickel, nylon, phenol, phthalates, polycyclic aromatic hydrocarbons, and zinc.

(2) A specific analysis evaluating varying exposure activities, environments, and exposure pathways, including whether chemicals found in tires have negative

impacts on human health when used in outdoor fields and parks with various weather exposures and potentially ingested by children or coming in contact with children's bodies.

(3) An analysis of the potential hazards that can occur based on the following factors:

- (A) Ages of the different populations who play on the synthetic turf.
- (B) The duration of the play.
- (C) Weather conditions during play.
- (D) How the synthetic turf comes into contact with the body.

(4) An examination of the potential for fields and playgrounds containing synthetic turf to cause adverse health impacts, including, but not limited to, non-Hodgkin lymphoma, testicular cancer, prostate cancer, sarcoma cancer, and leukemia.

(5) An examination of the health impacts associated with synthetic turf fields and playgrounds of varying age.

(6) An evaluation of the differences in the manufacturers of synthetic turf and different turf, field, and playground products, including those that do not use recycled tires, and how these differences may affect health updates. The evaluation shall include, but not be limited to, the types and age of tires used, the tire processing, and the type of plasticizer used to make the final synthetic turf product.

(7) An evaluation of the differences, in terms of health impacts, between crumb rubber and alternative surface materials, including coconut fibers, rice husks, cork, and used shoes.

(8) A review of current research on the health impacts of synthetic turf done by authoritative bodies from around the country and the world.

(9) Research to fill any data gaps, such as those data gaps identified by the report prepared by the Department of Resources Recycling and Recovery titled "Safety Study of Artificial Turf Containing Crumb Rubber Infill Made From Recycled Tires: Measurements of Chemicals and Particulates in the Air, Bacteria in the Turf, and Skin Abrasions Caused by Contact with the Surface."

(c) (1) A study submitted to the Legislature pursuant to subdivision (a) shall be submitted in compliance with Section 9795 of the Government Code.

(2) The requirement for submitting a study to the Legislature imposed pursuant to subdivision (a) is inoperative on July 1, 2021, pursuant to Section 10231.5 of the Government Code.

115812. (a) (1) A public or private school or local government shall not install, or contract for the installation of, a new field or playground surface made from synthetic turf within the boundaries of a public or private school or public recreational park.

(2) Paragraph (1) shall not apply to any installation of a field or playground surface made from synthetic turf that commenced, or any contract for such installation entered into, prior to January 1, 2016.

(b) This section shall remain in effect only until January 1, 2018, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2018, deletes or extends that date.

SEC. 2. Section 42873 of the Public Resources Code is amended to read:

150073957124BILL

42873. (a) Activities eligible for funding under this article, that reduce, or that are designed to reduce or promote the reduction of, landfill disposal of used whole tires, may include the following:

- (1) Polymer treatment.
- (2) Rubber reclaiming and crumb rubber production.
- (3) Retreading.
- (4) Shredding.
- (5) The manufacture of products made from used tires, including, but not limited

to, all of the following:

- (A) Rubberized asphalt, asphalt rubber, modified binders, and chip seals.
- (B) Playground equipment.
- (C) Crash barriers.
- (D) Erosion control materials.
- (E) Nonslip floor and track surfacing.
- (F) Oilspill recovery equipment.
- (G) Roofing adhesives.
- (H) Tire-derived aggregate applications, including lightweight fill and vibration

mitigation.

- (I) Molded products.
- (J) Products using recycling rubber and other materials, such as plastic.
- (K) Paint and coatings.
- (6) Other environmentally safe applications or treatments determined to be

appropriate by the board.

(7) A study to analyze synthetic turf for potential adverse health impacts, pursuant to Section 115811 of the Health and Safety Code.

(b) (1) ~~The board may~~ department shall not expend funds for an activity that provides support or research for the incineration of tires. For the purposes of this article, incineration of tires, includes, but is not limited to, fuel feed system development, fuel sizing analysis, and capacity and production optimization.

(2) Paragraph (1) does not affect the permitting or regulation of facilities that engage in the incineration of tires.
